

Last update: 13.2.2012 – 19:40

Unfortunately I currently do not have any mice for sale.

I made you a list of Czech breeding mice that you can bring to the exhibition. Mice are very distant from the cities of my home town (more than 300 km), **therefore it is necessary to reimburse me the shipping costs.**

Legend:

F - father of the litter

M: - the mother of the litter

F - female

M - male

Unst. - non-standard

CHS – breeding station

blue colour – reservation

green colour – confirmed reservation

red colour – unconfirmed reservation

Not all mice are the exhibition type, some have a pet mouse body composition.

Not all colors are absolutely perfect.

Not all litters are registered, but they all have a list of ancestors.

Number brought in by the mice is limited. Unfortunately I can not satisfy everyone!

CHS Family Geluzee

F: lh blue

M: lhs blue variegated

17.1.2012

F – lh black tan

M – lhs blue variegated, sh blue , sh blue, sh black
